**Application for internship recognition for the bachelor's program in
Business Information Systems and for the master's degree programs in
Business Information Systems and Human-Computer Interaction (HCI)
of the University of Siegen according to the internship regulations
(ON 67/2014) dating from July 10, 2014**

Students of the aforementioned degree programs are required to complete an internship with a duration of at least 6 weeks. The recognition of several shorter internships as a unit is not possible. The complete recognition of the internship is a requirement for admission to the bachelor's/master's thesis. In the internship, the students are intended to get to know the common workflow and the range of tasks by contributing to projects. The activities carried out during the internship should be directly related to the contents taught in the degree program. In addition, the students are intended to get to know the social aspect of the work process. The internship shall be completed at a research company abroad or at a company.
